

SEQS 2024 – Gavorrano, Southern Tuscany, Italy

Programme

INDOOR SESSION

Friday 27 th of September	Arrival in Follonica	
Saturday 28 th of September	09:00 – 10:00	Registration - Welcome
	SESSION 1 (12 min+3 min discussion)	
	10:00 – 10:15	Comparing the sedimentary infill of Pleistocene Glacial Basins of the Northern Alpine Foreland Markus Fiebig
	10:15 – 10:30	A review on chronology of Pliocene-Pleistocene fluvial terraces in southeastern Alpine foreland (Slovenia) Eva Mencin Gale
	10:30 – 10:45	Lateglacial and Early Holocene climate dynamics based on biostratigraphical data from Lithuania Vaida Šeirienė
	10:45 – 11:15	COFFEE BREAK
	11:15 – 11:30	MIS 5e-a terrestrial equivalents from the Tisa Lowland (western Ukraine) to the Dnipro-Donets Plain (eastern Ukraine): spatial and short-term temporal landscape changes derived from palaeosol and pollen successions Natalia Gerasimenko
	11:30 – 11:45	Identification of the Ancient Anthropogenic Catena by Deciphering Hidden Physical and Chemical Markers through pOSL and pXRF Analysis Oren Ackermann
	11:45 - 12:00	METIQ Project: The Quaternary Map of Italy at 1:500.000 scale Pierluigi Pieruccini
	12:00 – 14:00	LUNCH BREAK
	14:00 – 14:15	Račiška Pečina Cave sediment section: a significant geological site Nadja Zupan Hajna
	14:15 - 14:30	New chrono-stratigraphical reassessment of the sedimentary archive of the “Terre Rosse” at Grotta Romanelli (Apulia, Southern Italy) Davide Susini
	14:30 – 14:45	Discussion
	14:45 – 15:30	COFFEE BREAK
	15:30 – 17:30	SEQS BUSINESS MEETING https://bokuvienna.zoom.us/j/66557120322?pwd=OHZvYjNRZGwwYnlzWmtGa0s2Z3RUUT09
	17:30 – 19:30	VISIT MUSEUM AND TEATRO DELLE ROCCE
20:00 – 22:30	SOCIAL DINNER	

Sunday 29 th of September	SESSION 2 (12 min+3 min discussion)		
	10:00 – 10:15	Revision of the Quaternary bone remains of the steppe bison (<i>Bison priscus</i> Bojanus, 1827) from Poland	Urszula Ratajczak-Skrzatek
	10:15 – 10:30	How did Central European reindeer populations change during Pleniglacial - preliminary research results	Oliwia Oszczepalińska
	10:30 – 10:45	Biostratigraphy importance of canids from the Sudeten caves (Poland)	Aleksandra Kropczyk
	10:45-11:00	Morphometric and taphonomic investigation of Late Pleistocene herbivore fauna from Stajnia Cave, Poland	Karol Karbowski
	11:00 – 11:30	COFFEE BREAK	
	SESSION 3 (12 min+3 min discussion)		
	11:30 – 11:45	Novel methods for paleofire reconstruction from speleothems: a case study from Australia and potential applications in the Mediterranean context within the PRIN PNRR project "PROMETHEUS"	Nicolò Ardenghi
	11:45 – 12:00	Morphometric description of subglacial concretions in the Dolomites	Veronica Chiarini
	POSTER SESSION (3 min talks + 2 min discussion)		
	12:00 - 12:05	The Late Glacial and Holocene of the southern White Sea (northwestern Russia): correlation of marine and terrestrial sedimentary successions	Tatiana Repkina
	12:05 - 12:10	Holocene environmental variations in southern Lithuania based on chironomidae and cladocera data	Neringa Gasteviciene
	12:10 - 12:15	Pedogenic Carbonates from Syria and Jordan - a new regional Geoarchive?	Heinrich Thiemeyer
	12:15 - 12:20	The terrestrial carbonate as a tool to reconstruct landscape evolution: the case of Subiaco (central Apennines, Italy)	Paola Molin
	12:20 - 12:25	A sequence of deglaciation and Late Glacial marine transgression in the White Sea depression	Olga Korsakova
	12:25 - 12:30	The first fossil evidence of Upper Pliocene and Lower Pleistocene Cervidae and Bovidae in Slovenia	Urszula Ratajczak-Skrzatek
	12:30 - 12:35	The genus <i>Equus</i> Linnaeus, 1758 from the Pleistocene in Poland: Insights from the fossil record	Karol Karbowski
	12:35 – 14:00	LUNCH BREAK	
	14:00 – 15:00	POSTER SESSION and FREE COFFEE (discussion time around the posters)	
	15:00 – 16:30	FIELDTRIP INFO, AWARDS AND CLOSING
