September 10th DATESTRA

Workshop IFG INQUA SACCOM SEQS-DATESTRA:

“A Database of Quaternary Stratigraphy of Europe”

No talks or presentations are forecasted. The SEQS's Board will present to the participants the ideas behind the INQUA funded IFG Project, the prototype of the structure of the database, the type of data to be included and finally the possible output (WebGIS and so on). All of you are then invited to take part, in a friendly environment and in an informal way, to the discussion highlighting problems, suggesting changes, bringing new ideas in order to get the best result as possible. In our plans the final compiled version of the Database and related Output at the next INQUA Congress in Dublin. Therefore, your contribution to the discussion is warmly welcome.

September 11th-12th

How to get to Tautavel

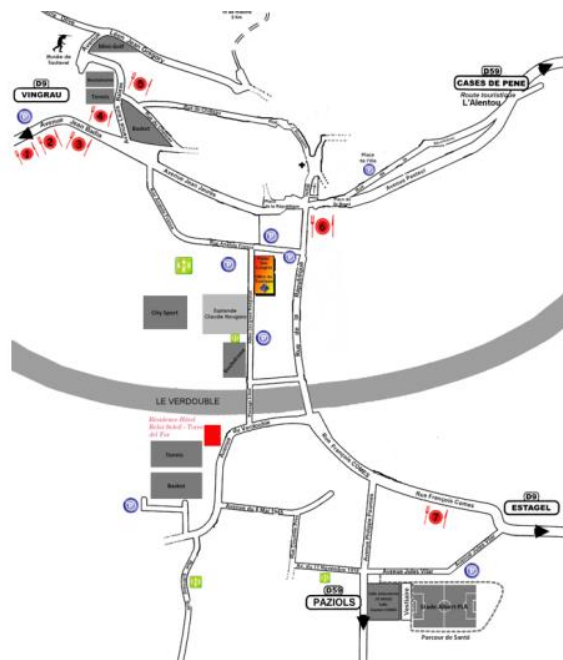

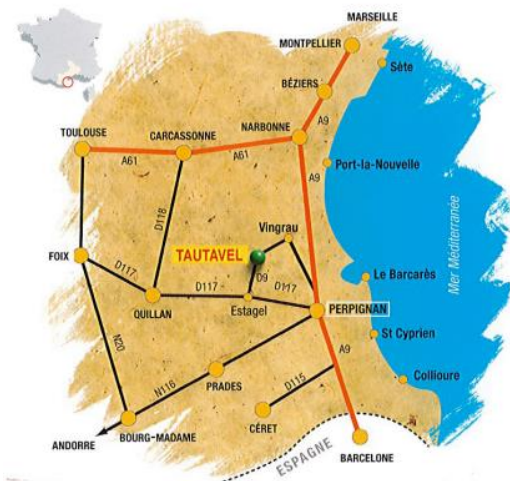

By car: Speedway A9, exit 41 (Perpignan Nord), then departmental 12 until Vingrau and departmental 9 until Tautavel.

By train: Nearest train stations: Perpignan, Rivesaltes.

By plane: The nearest airport is the Perpignan airport, “Llabanera” in Rivesaltes, north of Perpignan.

Also the airports of Barcelona and Girona are not so far from Tautavel (2h30 and 1h) and are connected by train and by a Bus service easily with Perpignan and indeed with Tautavel.

Here you are some link: <http://www.barcelona-airport.com/> or <http://www.girona-airport.net/>

ACCOMMODATION

The accommodation during the SEQS Conferences has been planned in the village club Languedoc Roussillon Torre del Far, only a few meters from the place where the work of the Congress will take place.

Standard

Chalet (2-5 people)

Rooms (2-4 people)

For information and reservations:

<http://www.capfrancevacances.com/village-vacances/torre-del-far-pyrenees>

By the way, the best solution for the accommodation reservation is:

choose the kind of accommodation (see above details about room typologies) and communicate to Vincenzo Celiberti by mail and he will arrange the reservation, because the web site of CapFrance is possibly still under maintenance.

For any supplementary information please sent a e-mail to:

FINANCIAL SUPPORT

INQUA provides the possibility for limited financial support to the SEQS activity in 2017 related to DATESTRA Project (Database of Terrestrial European Stratigraphy) (<http://datestra-seqs.strikingly.com>).

The support concerns only (a part of) travel-accommodation costs or registration costs and is primarily meant for Early Career Researcher (ECR, less than 8 years PhD) and Researchers from Countries with a low GDP.

If you want to make use of this opportunity for the 2017 meeting in Tautavel, France, you can ask for support by sending the application form to the Secretary of SEQS: Pierluigi Pieruccini (pieruccini@unisi.it)

before **15th July 2017**.

There is no guarantee that all costs can be covered by the INQUA grant. Therefore we ask you to indicate which part of the total costs can be covered by yourself or your institute. **Since the funds are devoted particularly to the DATESTRA project people who will present contributions to the DATESTRA session (please indicate the provisional title) will come first.**
